Words women use & the male translation

- **5 minutes:** if she is getting dressed, this means a 1/2 an hour. 5 min. is only 5 min. if you have just been given 5 more min. to watch the game before helping around the house.
- **Nothing:** this is the calm before the storm. This means something & you should be on your toes. Arguments that begin with nothing usually end in fine...
- **Go ahead:** this is a dare, not permission. Don't do it!!
- **Fine;** This is the word women use to end an argument when they are right & you need to shut up.
- **That's okay:** This is one of the most dangerous statements a women can make to a man. That's okay means she wants to think long & hard before deciding how & when you will pay for your mistake.
- **Don't worry about it, I got it:** Another dangerous statement, meaning this is something that a woman has told a man to do several times, but is now doing it herself.

I don't suffer from insanity, I enjoy every minute of it!
